Coral Lagoon Resort A Boater's Paradise

The Singh Company realized the critical need for boating access in the Middle Florida Keys and deftly assembled several parcels around the aging Coral Lagoon Resort and The Boat House dry boat storage facility. A new master plan was created to provide waterfront views for all and a state-of-the-art marina and dry boat storage facility. The all new boutique, luxury resort tucked away on almost eight acres in the heart

of Marathon Key, Coral Lagoon Resort features twenty-five three bedroom conch style marina homes on an ocean side private canal. Its signature Atlantic side waterfront location provides boaters with easy access to the Key's best fishing destinations. Each three bedroom, three bath home has first and second level private porches overlooking the marina or canal.
